Claudio,

Based on email below, when can we get the PO for price increase?

We are working to wrap up October month end by Wednesday.

Thanks,

Dan

We received the revised letter regarding your stop shipment notice if we do not provide an increase – the verbiage should meet our needs.

As for the letter regarding lump sum payment at time of tool transfer, I did review the proposal with our accounting team and we will need to walk through the process. Since Anchor will still continue to ship the bank according to releases, we will need to update the P.O. with the revised price on the date of transfer so that the quantities shipped after the tool transfer will be paid at the increased price. Please include this and provide this letter for our review.

Subject: Phone Conference Summary: Anchor-Magna CBAM

WARNING: This e-mail originated from outside of Magna. Be cautious with links and attachments.

Dear Tom:

Thank you for your time this morning. To summarize our conversation:

- 1) Anchor will send a revised letter that has less detail to Magna CBAM
- 2) Anchor will send a simple agreement on the lump sum payment for the parts scheduled to move that allows for a wire payment at time of parts bank and die removal. Magna CBAM will review and execute this agreement.
- 3) Anchor will provide a timeline for the bank build on parts that are moving that will not exceed January 15, 2023. NOTE: Anchor plans to complete these banks much sooner and will use weekends and holidays to do so to the extent possible.
- 4) Magna CBAM will revise the Purchase Orders for the parts that are staying indefinitely to show the price increase effective October 1, 2022. These prices can only be changed by mutual agreement of both parties. Magna CBAM is permitted to resource these parts at their sole discretion if they feel it is appropriate.
- 5) Anchor will officially sign the draft letter once (2) and (4) are executed by Magan CBAM.

Thank you again for your efforts on reaching a resolution.

Best regards,
Fred
